Message from Chairperson

Message from Chairperson

The bay area, covering Hong Kong, Macao and nine cities in Guangdong (Guangzhou, Shenzhen, Zhuhai, Foshan, Huizhou, Dongguan, Zhongshan, Jiangmen, and Zhaoqing), is a dynamic economic hub in South China and features an array of fascinating destinations. Rich in heritage and home to some of China's most dynamic cities, the advanced infrastructure of the region puts the cultural and natural attractions of the bay area within easy reach of Hong Kong.

The country is about to promulgate the development plan for the Greater Bay Area of Guangdong, Hong Kong and Macao. Students in Hong Kong will continue to study, work and live in the future, and will be closer to the surrounding cities. The Education Bureau has added a student exchange program on the theme of the Greater Bay Area. It has visited local innovative technology companies and is considering taking the Hong Kong-Zhuhai-Macao Bridge in the future.

As the most developed international city in the Greater Bay Area, Hong Kong has a responsibility as a leader, connecting the Greater Bay Area with the world and leading the Greater Bay Area out of the international arena to make Hong Kong's role more important. As a national task, the first stop is located in Macau. Macau is known as the Las Vegas in the East. There are also a variety of tourist spots: A-Ma Temple, Tourist Tower, Ruins of St. Paul, etc. Big Bay Bei people are all familiar with Macau.

This year, Guangdong-Hong Kong-Macao Greater Bay Area Mathematical Olympiad becomes an International Mathematical Olympiad. Team Australia, Bulgaria, Cambodia, Hong Kong, Indonesia, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam have sent representatives to join Final Round 2023. Under COVID-19, Guangdong-Hong Kong-Macao Greater Bay Area committee not only offers paper-based exams to regional partners, but also provides online exam for maintaining social distancing.

All best,

Chairperson of Guangdong-Hong Kong-Macao Greater Bay Area Mathematical Olympiad
Dr. Lam Tsz Kuen - PhD in Mathematics – Concentration in Actuarial Science and Risk Analytics
